INDEX—SUBJECTS

Abscess, Candida lung, successful treatment of, with amphotericin B and 5-flucytosine (case report), 766
Actinomycosis, thoracic, caused by *Actinomyces meyeri* (case report, 251
Adenocarcinoma, differentiating bronchioloalveolar carcinoma from, 74
Adult sleep apnea syndrome, acute and long-term ventilatory effects of hyperoxia in, 175
Aerosol, inhaled sulfuric acid, measurements of respiratory ammonia and chemical neutralization of, in anesthetized dogs, 502
Air, cold, asthma induced by, and its relation to nonspecific bronchial responsiveness to methacholine, 281
Airflow obstruction, chronic
  circulatory transport of oxygen in patients with, exercising maximally, 426
  dose-response characteristics of inhaled atropine sulfate in patients with, 331
  physical signs in patients with, 549
  rapidly decreasing forced expiratory volume in one second or vital capacity and development of, 553
Airway(s)
  dimension, small, and size distribution in lungs with increased closing capacity, 535
  disease, obstructive, index of risk for, 144
  function, effects of sulfur dioxide on (correspondence), 125
  of hamsters, conducting, endogenous peroxidase in, 341
  intrathoracic and extrathoracic, ciliary beat frequency in epithelium from, 100
  isolated canine, constrictor effect of cotton bract extract on, 727
  obstruction, upper, recurrent suppressed goiter causing (case report), 757
  oral, respiratory resistance of (Note), 363
  pressure, expiratory positive, effects of, on resolution of oleic-acid-induced lung injury in dogs, 716
  subsensitization of beta-adrenoceptors in, in healthy and asthmatic subjects, 185
Albumin density gradient, discontinuous, alveolar macrophage subpopulations identified by differential centrifugation on a, 448
Allergy, house-dust, preventive measures in, 80
Alloantigens, antigen-induced recruitment of circulating lymphocytes to lungs and hilar lymph nodes of mice challenged intratracheally with, 453
Alpha-aminoisobutyric acid, impaired uptake of, and endothelial cell damage after gamma-irradiation *in vitro*, 95
Alpha$_1$-antitrypsin variant, new anodal, associated with emphysema: Pi Bsaskatoon, 594
Altitude, high adaptations to, and relationship of mixed venous oxygenation to oxygen transport (pulmonary perspective), 474
Alveolar
  development in normal postnatal rat lung, 468
  hypoventilation, primary, beneficial effect of oxygen on (case report), 773
  macrophages(s)
    colony-forming cells, effects of hydrocortisone on, 712
    elastase and nitrogen dioxide exposure in hamsters, 203
    evidence for *in vivo* internalization of leukocyte elastase by (Note), 779
    kinetics and function after interrruption of canine marrow function, 347
    opsonin-independent phagocytosis by, augmented by human plasma fibronectin (Note), 607
    subpopulations identified by differential centrifugation on a discontinuous albumin density gradient, 448
American Type Culture Collection, cultured cell lines for research on pulmonary physiology available through, 222
Aminophylline
  optimal use of intravenously administered, in severe acute bronchial obstruction, 181
Ammonia, respiratory, measurements of, and chemical neutralization of inhaled sulfuric acid aerosol in anesthetized dogs, 500
Amphotericin B
  and 5-flucytosine, successful treatment of Candida lung abscess with (case report), 766
  in liposomes as therapy for histoplasmosis (Note), 610
Angiotensin converting enzyme
  concentrations in lung lavage of normal rabbits and rabbits treated with nitrogen mustard exposed to hyperoxia (correspondence), 125
  serum, correlation of, with blood and bronchoalveolar lymphocytes in pulmonary sarcoidosis (Note), 366
Antibodies
  antiperoxidase, permeability of blood-air barrier to, and their fragments in normal rat lung, 734
  monoclonal antimacrophage, 586
Antigen(s)

occupational hypersensitivity, after exposure to diphenylmethane diisocyanate (case report), 113
Poland, cooperative study of successful intermittent treatment of smear-positive pulmonary tuberculosis in six months in (Note), 265
Polycythemia, secondary, and cigarette smoking in hypoxic cor pulmonale, 507
Posture, effects of, on total respiratory compliance (Note), 262
Primates, usefulness of protected specimen brush in bacteriologic diagnosis of nosocomial pneumonia in, 53

Propranolol, impaired lung uptake of, in pulmonary emphysema, 194
Prostaglandin E_1, reduction in pulmonary hypertension by, in decompensated COPD, 1
Pulmonary
arterial and alveolar development in normal postnatal rat lung, 468
disease
caused by *M. kansasii* and *M. intracellulare*, diagnostic criteria for, 388
chronic obstructive
acute effects of 0.2 ppm ozone in patients with, 664
effect of histamine inhalation on control of breathing in, 6
familial factors affecting arterial blood gas values and respiratory chemosensitivity in, 420
short-term respiratory effects of 0.12 ppm ozone exposure in volunteers with, 658
decompensated chronic obstructive, reduction in pulmonary hypertension by prostaglandin E_1 in, 1
relationship of mixed venous oxygenation to oxygen transport and adaptations to high altitude and (pulmonary perspective), 474
severe chronic obstructive, electrical and mechanical activity of diaphragm accompanying body position in, 275
function
in adult twins, genetic and environmental influences on, 409
effect of occupational exposure, on fire fighters and non-fire fighters, 319
in identical twins raised apart (Note), 119
manpower surplus in 1990: a challenge for analysis and planning in 1981 (correspondence), 484
mechanics, effects of leukotriene E on, in guinea pig, 290
physiology, culture cell lines for research on, available through the American Type Culture Collection, 222
Pyrazinamide deamidase activity in tuberculous disease (correspondence), 125
Rabbits
challenged intravascularly with complement-derived chemotactic factors, 335
absence of inflammatory lung injury in, 335
granulocytes mediate acute edematous lung injury in, and in isolated rabbit lung perfused with phorbol myristate acetate, role of oxygen radicals in, 443
normal, and treated with nitrogen mustard exposed to hyperoxia, angiotensin converting enzyme concentrations in lung lavage of (correspondence), 125
Rat
changes in pulmonary connective tissue after single intratracheal instillation of papain in, 239
effects of bacterial pneumonitis on development of pneumocystosis in, 723
lung
normal, 734
permeability of blood-air barrier to antiperoxidase antibodies and their fragments in, 734
postnatal, pulmonary arterial and alveolar development in, 468
paraquat-damaged, accumulation of radionuclide-labeled platelets and fibrinogen in, 574
Respiration in newborns and development of control of breathing, 650
Respiratory
compliance, total, effects of posture on (Note), 262
disease in New Mexico population sample of Hispanic and non-Hispanic whites, 152
distress syndrome, acute, after peritoneovenous shunt (case report), 244
effects
acute, of exposure to diesel emission in coal miners, 39
short-term, of 0.12 ppm ozone exposure in volunteers with COPD, 658
health in a rural community, 374
heat loss, refractory period after exercise-induced asthma unexplained by, 530
insufficiency, pathogenesis of, in myotonic dystrophy, 312
muscle activity during expiration, effects of inspiratory loading on, 352
new year quiz 1982 (clinical commentary), 615
resistance of oral airway (Note), 363
specimens, increased recovery of *Aspergillus flavus* from, during hospital construction, 33
symptoms, effect of cigarette tar content and smoking habits on, in women, 684
tract,
deposition of sidestream cigarette smoke in, 406
lower, failure of a plugged double catheter system to obtain sterile cultures of, 678
Rib cage movements, paradoxical, induced by diaphragm pacing (correspondence), 782
Rifampicin-induced early phase hyperglycemia in humans, 23
Rifampin
-containing chemotherapy for pulmonary tuberculosis associated with coal-workers' pneumoconiosis, 681
streptomycin, ethionamide, and ethambutol, synergistic effect of, on *M. intracellulare*, 43
Roentgenogram
annual chest, for control of tuberculosis in hospital employees, recent changes in, and their implications (clinical commentary), 106
manifestations on, of bronchocentric granulomatosis, 751
Sarcoidosis
pulmonary, correlation of serum angiotensin-converting enzyme with blood and bronchoalveolar lymphocytes in (Note), 366
talc granulomatosis similar to (Note), 258
Scans, pulmonary perfusion, patterns of, in normal subjects, and prevalence of abnormal scans in young smokers, 465
Sensitivity, specificity, and risk of diagnostic procedures in a canine model of *Streptococcus pneumoniae* pneumonia, 436
Serum
angiotensin-converting enzyme, correlation of, with blood and bronchoalveolar lymphocytes in pulmonary sarcoidosis (Note), 366
chemotactic factor inactivator activity, elevation of, during acute inflammatory reactions in patients with hypersensitivity pneumonitis (Note), 612
concentration, theophylline, and therapeutic effect in severe acute bronchial obstruction, 181
effect of, on secretion of radiolabeled mucous macromolecules into the lumen of cat trachea, 210
and plasma concentrations of DNA in pulmonary thromboembolism, 416
Shunt, peritoneovenous, acute respiratory distress syndrome after (case report), 244
Skin testing, serial tuberculin, absence of booster phenomenon in, 323
Sleep
apnea syndrome, adult, acute and long-term ventilatory effects of hyperoxia in, 175
breathing during, in parents of sudden infant death syndrome victims, 163
disturbed, and prolonged apnea during nasal obstruction in normal men (correspondence), 484
features of, in nocturnal asthma, 18
hypoxic ventilatory response decreases during, in normal men, 286
Smoke, sidestream, cigarette, deposition of, in respiratory tract, 406
Smokers
tuberculosis and lung cancer risk in women who are not (Note),

776
young, prevalence of abnormal pulmonary perfusion scans in, 465
Smoking
cessation, changes in lung function after, cross-sectional survey of (Note), 122
cigarette, and secondary polycythemia in hypoxic cor pulmonale, 507
habits and cigarette tar content, effect of, on respiratory symptoms in women, 684
Spirometry
noncomparability of longitudinally and cross-sectionally determined annual change in, 544
reference standards for, in North American Indian children, 158
Statistical methods, analysis of (correspondence), 782
Streptococcus pneumoniae pneumonia, sensitivity specificity, and risk of diagnostic procedures in a canine model of, 436
Streptomycin, rifampin, ethionamide, and ethambutol, synergistic effect of, on *M. intracellulare*, 43
Sudden infant death syndrome victims, breathing during sleep in parents of, 163
Sulfur dioxide
effects of, on airway function (correspondence), 125
-induced bronchoconstriction
exercise increases, in asthmatic subjects (correspondence), 370
in exercising asthmatic subjects, effect of oronasal breathing route on, 627
Sulfuric acid aerosol, inhaled, measurements of respiratory ammonia and chemical neutralization of, in anesthetized dogs, 502
Syndrome
acute respiratory distress, after peritoneovenous shunt (case report), 244
adult sleep apnea, acute and long-term ventilatory effects of hyperoxia in, 175
hypersomnia-sleep apnea, pathogenesis of apneas in, 167
immotile-cilia, and ciliary abnormalities induced by infection and injury, 269
sudden infant death, breathing during sleep in parents of victims of, 163
superior vena cava, as cause of pleural effusion (case report), 246
Talc granulomatosis similar to sarcoidosis (Note), 258
Theophylline
serum concentration and therapeutic effect in severe acute bronchial obstruction, 181
toxicity after dyphylline therapy (correspondence), 484
Thiosemicarbazones, 2-acetylpyridine and 2-acetylquinoline, activity of, tested *in vitro* in combination with other antituberculosis drugs, 58
Throat flora, normal, as cause of pneumonia (correspondence), 782
Thromboembolism, pulmonary, plasma and serum concentrations of DNA in, 416
Tissue, pulmonary connective, changes in, after single intratracheal instillation of papain in rat, 239
Tobramycin, bronchial secretion concentrations of, 208
Tonometry, evaluation of blood gas quality control and proficiency testing materials by (Note), 480
Trachea, cat, effect of serum on secretion of radiolabeled mucous macromolecules into lumen of, 210
Trimethoprim-sulfamethoxazole in therapy of recurrent *Pneumocystis carinii* pneumonia (case report), 762
Tuberculin skin testing, absence of booster phenomenon in, 323
Tuberculosis
active pulmonary, and concurrent legionnaires' disease (case report), 759
annual chest roentgenogram for control of, in hospital employees, recent changes in, and their implications (clinical commentary), 106
and lung cancer risk in nonsmoking women (Note), 776
nosocomial, 559
pulmonary, rifampin-containing chemotherapy for, associated with coal-workers' pneumoconiosis, 681
pyrazinamide deamidase activity in (correspondence), 125
smear-positive pulmonary, successful intermittent treatment of, in six months, cooperative study of, in Poland (Note), 265
Tumor, pulmonary pseudo, round atelectasis as (case report), 248
Twins
adult, genetic and environmental influences on pulmonary function in, 409
identical but raised apart, pulmonary function in (Note), 119
Vena Cava syndrome, superior, as cause of pleural effusion (case report), 246
Ventilation
effects of oxygen breathing on regional distribution of, in hypoxemic patients with chronic lung disease, 12
-perfusion inequality, pattern and time course of, in exercise-induced asthma, 304
pulmonary, and blood gas values in emphysematous hamsters, 299
Ventilatory
and arousal responses to hypoxia in sleeping humans, 632
effects of hyperoxia, acute and long-term, in adult sleep apnea syndrome, 175
response, hypoxic, decrease during sleep in normal men, 286
Ventricular function, left, positive end-expiratory pressure does not depress, in patients with pulmonary edema (correspondence), 370
Vibrating footpad, more on (correspondence), 782
Workers
asbestos-cement factory, long-term, asbestosis in, 496
coal
acute respiratory effects of exposure to diesel emissions in, 39
pneumoconiosis, rifampin-containing chemotherapy for pulmonary tuberculosis associated with, 681
fire fighters, effect of occupational exposure on pulmonary function in, 319
who process green coffee beans, lung function consequences of exposure and hypersensitivity in, 199
